B-25: 19,7

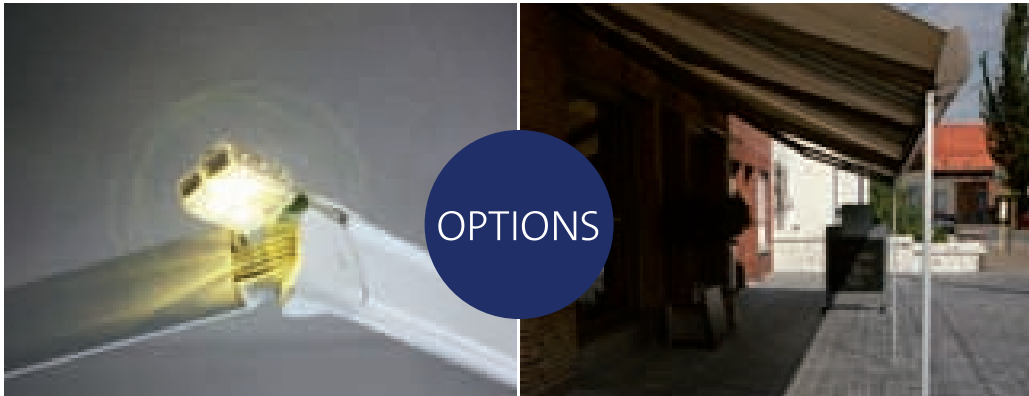

B-25 ELITE: 14,7
B-25: 14

B-25 ELITE
& B-25

Solid and elegant at the same time

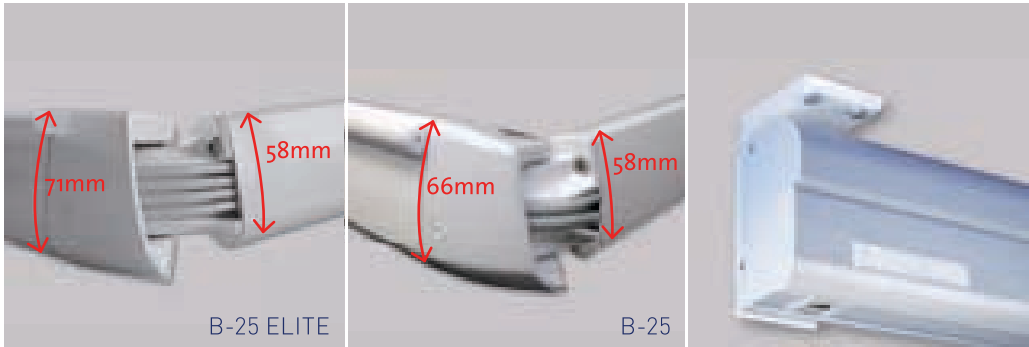

The Brustor B-25 Elite is a full enclosed cassette awning, designed on the same basis of the Brustor B-25 and is ideal for big projections thanks to the larger and stronger 71 mm high arms with 4 cables which create an even higher fabric tension.

The Brustor B-25 Elite has an aluminium welded side plate which gives the awning an elegant finishing touch.

You can add remote control led lights to the arm to illuminate the area under your awning when the light level drops.

Integrated telescopic support legs as an option.

Arms with 4 cables for even greater fabric tension on the B-25 elite.

Retractable arms (66mm high) with twin cables ensure the fabric remains taught on the B-25.

The awning can be top fixed with special ceiling fix brackets.

DIMENSIONS	B-25	B-25 Elite
width	min. 2,05 m - max. 13,00 m - coupled from 7,00 m	
projection	1,50-2,00-2,50-3,00	1,50 - 2,00 - 2,50 - 3,00 - 3,50 - 3,75 m
